LEE & PLUMPTON

Lee & Plumpton is a family owned and operated manufacturer of stylish, contemporary furniture. Established in 1974, the Company is a champion for British design and manufacturing with a commitment to quality, service and sustainability.

Based at its 200,000 square foot manufacturing facility in Norfolk, the Company's infrastructure includes wood, metalwork and upholstery facilities together with extensive warehousing and inhouse logistics.

A COMMITMENT TO SERVICE

Dedicated Customer Service

The values of Integrity, Commitment, Development, Accountability and Teamwork underpin the culture and aspirations of the Company. We strive to design and develop an extensive portfolio of quality products which combine aesthetics and practicality to offer Best Value solutions. The ongoing monitoring of every aspect of the business ensures we are able to implement continuous improvements to maintain our determined commitment to customer service.

Inhouse Delivery Fleet

We operate and manage our own delivery fleet and are targeted for accurate, on time order fulfillment. Rapid turnaround is guaranteed by our weekly scheduled deliveries and, on many items, we also offer a 'Quick Ship' service. Standard deliveries are free of charge with next day delivery on stocked items or customer collection (with 24 hours' notice) also available.

Quick Ship: Products delivered within 5 working days from your order deadline date.

Group A: Products subject to a longer lead time (typically three weeks).

Extensive Stock Holding

Our 200,000 square feet manufacturing base includes an extensive warehousing facility. We hold stock of an estimated 50,000 items including raw materials and finished goods.

This substantial financial investment provides a further demonstration of our determined commitment to the highest levels of customer service.

INHOUSE EXPERTISE

Bespoke Design

Unlike many manufacturers, we are able to develop customised solutions to match each client's precise requirements. With its own production unit and dedicated team, our Bespoke department can design and manufacture products from original 'sketches' or develop existing range items to customised specifications.

Your dedicated account manager, together with a member of the Bespoke team, will work with you to develop a solution to match your requirement and budget.

Planning & Design

Our highly experienced designers are available to offer expert space planning and design services. Working from simple sketches or architect plans, we can recommend product choice, configurations and finishes to match desired outcomes and available budget.

We will advise regarding effective space utilisation and work collaboratively to consider lighting, team requirements, storage as well as existing building services and future reconfigurations.

CGI Expertise

We have an extensive library of product images together with a portfolio of 3D CAD files. Customers can download files from our web site or upon request. In addition, our expert, inhouse CGI team is highly skilled in creating photo-realistic images to help visualise proposed interiors, colours and designs.

Sales & Customer Support

We know relationships are important. Our nationwide sales team offers 'face to face' meetings to provide expert support, advice and guidance as well as facilitating access to our extensive inhouse services including customised marketing materials, product samples and collaborative events.

Every order is carefully monitored and tracked by our customer services team. Fully trained advisors provide a dedicated point of contact to manage queries and requests as well as full after-sales support.

A COMMITMENT TO QUALITY

Continuous investment in facilities and training, coupled with a dedicated workforce and strong supplier relationships, ensures the quality, consistency and reliability our customers expect. The management and measurement of our internal processes and procedures drives our quest for development and improvement and, therefore, ongoing customer satisfaction.

RESPONSIBLE MANUFACTURING

As a major manufacturer, we recognise our responsibility to consider all of our business activities – from management, administration and product design through to our manufacturing processes and procedures - in terms of environmental impact.

Our efforts embrace the full spectrum of business activities including reductions in carbon emissions through to recycling initiatives, transportation, investment in solar power and procurement practices. Monitored through regular scrutiny, we have a commitment to work towards a more sustainable and greener future.

Environmental Management

We measure and assess our efforts through our integrated Environmental Management System. Registered to ISO 14001: 2015, our system incorporates clear objectives which are monitored and measured through a documented programme with regular reviews for continuous improvement.

EMS515183

Sustainability

Created in 2006, the Furniture Industry Sustainability Programme (FISP) has become established as the furniture industry forum on all environmental and sustainability issues. These considerations relate to all aspects of the industry's business, from purchasing and procurement through to end of product life, including social, ethical and employment concerns as well as waste, energy and emissions.

We are full members of FISP and this enables us to focus on reducing our social and environmental impact.

Chain of Custody

Our Chain of Custody certification (COC) with the Forest Stewardship Council (FSC) represents the unbroken path that certificated products take, from the sustainably managed forests of origin, to the consumer.

The mark of responsible forestry

Zero to Landfill

As a conscientious and socially responsible manufacturer, we're extremely proud to say that we send zero waste to landfill.
